

I want to let you know why the broadcasting of 'K-LOVE' is important to our family. #1-it serves our local community with music and information that I don't have to worry about for my grandchildren to listen to. Family members can't be around all of the time to explain 'off color' comments to younger children. This radio station brings a variety of music, it's a positive addition to our community and I personally know that many families listen to this station all of the time. All of our radios in our home and cars are set to 'K-LOVE.' K-LOVE also provides listing of local events, current news stories on all sides of the issues, plus it's supported by those of us who listen. This station gives us a choice about what we listen to locally. Over the years, I have seen some stations that start out as 'family friendly' move towards information and music that I would not want my grandchildren or children when they were younger listen to. Thanks for your time. Trust that you have a pleasant day.
